

Environmental Policy Statement

Scunthorpe Lawnmowers Limited is a family run business with over 40 years' experience in the provision of contract grounds maintenance and commercial & domestic hard and soft landscaping services. We aim to deliver top quality services to all our clients each and every time in an environmentally sound, safe and compliant manner.

The Directors of Scunthorpe Lawnmowers Limited attach great importance to their responsibilities for the management and protection of the environment including the prevention of any pollution caused during our process and control and follow three basic commitments:

1 Protect the environment

- By preventing adverse environmental impacts through prevention of pollution.
- To protect the natural environment from harm and degradation arising from our activities, products and services.

2 Fulfil our compliance regulations

- Fulfil our compliance by following our company obligations/policies/objectives.
- Following local/regional/national/international legislation and applying them so we are compliant to our company obligations.
- By committing to our Company obligations, we can address water quality, recycling, replanting schemes.

3 Continually improve the environmental management system to enhance environmental performance.

- To do this we constantly re-evaluate and determine our compliance obligations, and ensure our operations are carried out in accordance with compliance regulations. We do this by evaluating our fulfilment of our obligations and correct any non-conformalities.

ENVIRONMENTAL OBJECTIVES

Environmental objectives:

1. To review battery commercial mowers and remote operator bank mowers.
2. Increase recycling by 2%.
3. Make habitats from logs where possible when cutting trees down.

Carbon footprint:

1. Reduce electricity usage.
2. Reduce fuel usage.
3. Reduce heating oil.
